

[Updated 2015-08-17] The FIX Repository and FIXML schema reflect the revisions to EP161, EP169 and EP170. ASBUILT Word and pdf documents, the FIX Repository and the FIXML schema artifacts have been further revised. Details can be found here.

- Corrected the data type for PricePrecision(2349); changed from float to int.
- Removed the enum datatype 40910, changed the Union datatype to Reserved1000Plus and included reference to the external code list RelativeToDate for the following fields:  
UnderlyingProvisionCashSettlePaymentDateRelativeTo(42093),  
UnderlyingProvisionCashSettleValueDateRelativeTo(42107),  
UnderlyingProvisionOptionExerciseStartDateRelativeTo(42121),  
UnderlyingProvisionOptionExpirationDateRelativeTo(42135),  
UnderlyingProvisionOptionRelevantUnderlyingDateRelativeTo(42144)
